VOLLEYBALL ENGLAND

JUNIOR GRAND PRIX SERIES
RECORDING RESULTS

Google Sheets

- The preferred method of hosts recording results is via Google Sheets.

- Ahead of the event each host will be emailed with a google sheet (see template examples for 6v6 and 4v4).

- Ahead of the event the teams; courts and timings need to be added

- During the event, the match scores need to be added and the set scores will be calculated automatically.

BENEFITS

- **Instant results and tables** – The URL for each Google Sheet will be added to the Volleyball England website allowing all the results to be instantly viewable by everyone when they are updated.

- **Calculations** – The Pool Standings are calculated automatically, therefore no need for a calculator

- **Less Admin** – No requirement for the host to send in results post-event.

- **Less Printing** – Google Sheets can be completed using any mobile device or laptop.
